

Q3. Decision 4

Solved

Stuck somewhere?

Ask for help from a TA and get it resolved.

Get help from TA.

The shape of a decision tree can make a big difference in what happens when you use it.

If your computer program is using this decision tree, how many questions, on average, will the computer program need to ask and answer in order to distinguish a random face?

You have already attempted this problem, to see your original answer, [Click Here](#) . However you can re attempt this problem but your score will not be revised
